Subject: Video Conference on creation of productive assets of prescribed quality and durability under MGNREGA.

Madam Sir

As enshrined in para 3 of Schedule I of the Act, the core objective of MGNREGA is providing employment in rural areas as per demand, resulting in creation of productive assets of prescribed quality and durability to strengthen the livelihood resources base of the poor.

Many of the states in the country are facing acute drought condition, whereas, almost all the works required for drought mitigation are permitted under MGNREGA. Therefore, if works under MGNREGA are carried out scientifically and systematically with required technical input, it will create productive assets of prescribed quality and durability, which will mitigate drought and will strengthen the livelihood resources base of the poor.

Yours faithfully
