Subject: Difference in Data reported on MPR and MIS in FY 2011-12

Sir/Madam,

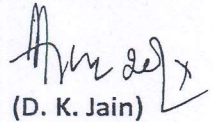

As you aware, proactive disclosure is a mandatory requirement in MGNREGA. Para 13 (a) (iii) states that "All information on MGNREGA will be placed in public domain through the website for MGNREGA as prescribed by Government of India and be available through free downloadable electronic form". You are also aware that it has been decided that release of funds, henceforth, will be based on expenditure reported on MIS.

2. MoRD is regularly reviewing the gaps between expenditure reported by States and expenditure entered in MIS.

3. Analysis of the data reported by States upto 31st August, 2011 vis a vis MIS data reported reveals gaps as shown in the table annexed.

4. You are requested to review this at your level in details and take necessary steps to fully operationalise MIS in a time bound manner.

Yours sincerely,

(D. K. Jain)
