**Dated: 10<sup>th</sup> August, 2009**

Dear

Kindly refer to the meeting held on 8<sup>th</sup>, May, 09 at Unnati Hall, Krishi Bhavan, New Delhi in which the progress of the ICT Pilot projects in five States (Andhra Pradesh, Bihar, Kerala, Orissa, and Uttar Pradesh) was reviewed.

2. States were requested to complete the project by end of June, 09. You are requested to submit a project completion report and the utilization certificate against the fund release of Rs. 33.5 Lakhs.

3. You are requested to prepare and submit the report on following apart from other details:

- a) Methodology to implement the whole project.
- b) Technology incorporated.
- c) Methodology of authentication.
- d) Methodology and mode of payment.
- e) Integration with the NREGA MIS and implementation of People Information System.
- f) Feedback of the beneficiaries to know the user satisfaction.

4. With an objective of extending the use of ICT under NREGA up to lowest level, Ministry of Rural Development has developed a "People Information System". This is like one of the modules of NREGA MIS through which workers/citizens can assert their rights and directly access any information of NREGA. This can be accessed from any computer with internet. The link is available on the home page of NREGA website (<http://nrega.nic.in>) under the tab named "Worker".

5. Since the pilot project locations will be having computer and internet at the Gram Panchayat level this can be easily integrated with the ongoing ICT pilot project without any financial implication.

6. Kindly look into the matter so that the project can be successfully completed under your guidance.

With regards,

Yours sincerely,

**(Amita Sharma)**
