SUBJECT : Checks in the MIS(NREGASoft) for restricting erroneous entries

Sir/Madam,

While it is appreciated that all States have started placing MGNREGA data on public domain using the NREGASoft MIS (<http://nrega.nic.in>), it has also been observed that many of the complaints are due to erroneous data entry into the MIS (NREGASoft).

2. In order to address the above issue certain checks need to be introduced at the time of data entry so that erroneous entries are prevented. You are requested to kindly get this issue examined and prepare a list of checks so that it can be discussed in the next MIS Nodal Officer meeting.

3. I shall be grateful if you could expedite the aforesaid.

Yours faithfully,

(D.K. Jain)
