Sub: Progress on Focus Areas Work-Farm Ponds

Sir/Madam,

Construction of Farm Ponds is one of the Focus Areas in the FY 2016-17 along with IHHL, AWC and Vermi-Compost/NADEP Compost Pits. However, it is observed through the MIS report as on 21st October 2016 that there are States way below the targets committed during the labour budget meeting for FY 2016-17. At the same time there are States which have crossed their targets. The list of states is enclosed for the ready reference.

2. Therefore, States may analyse the rate of progress and devise strategies, so that the commitments are met. It is pertinent to mention that all such farm ponds need to be completed by 31st march 2017.

Yours faithfully
